## A FUN MATHS GAME FOR TWO PLAYERS

YOU NEED: 2 SIX-SIDED DICE AND ABOUT 40 COUNTERS IN TWO DIFFERENT COLOURS.

HOW TO PLAY: FIRST PLAYER THROWS THE TWO DICE, ADDS THE TWO NUMBERS TOGETHER THEN MULTIPLIES BY 4. THEY PLACE ONE OF THEIR COUNTERS ON THIS NUMBER ON THE BOARD.

THE SECOND PLAYER PLAYS THE SAME, EXCEPT THEY CAN BUMP THE FIRST PLAYER OFF THE NUMBER ON THE BOARD IF THEIR ANSWER IS THE SAME. BUT, THEY CAN ALSO COVER THE SAME NUMBER ELSEWHERE. YOU CAN MAKE YOUR COUNTER SAFE BY COVERING THE NUMBER WITH TWO COUNTERS -- A DOUBLE. DOUBLES CANNOT BE BUMPED OFF.

THE WINNER HAS TO COVER FOUR ADJACENT SQUARES THAT MAY HAVE ONE OR TWO COUNTERS ON EACH NUMBER.
