WAR

DIRECTIONS

2-6 players

What you need:

One deck of cards and 2-6 players. Use all the cards for 6 players. Use half the deck for 2 players.

What to do:

Deal the whole deck between players.

The players do not look at their cards and place them face down in a pile in front of them.

The first player turns over their top card and places it in the middle. Each player does the same with cards side by side. The player with the highest card keeps all the cards and places them upside down at the bottom of their pile. When they get to these cards, they shuffle them and turn them over and resume play.

Play continues like this until one player has all the cards. This player is the WINNER.

WAR CARD

When a WAR CARD is played each player places another card, face down on their previous card. Then they place a card face up on top of these two cards. The highest card played takes all the cards. If another WAR CARD is played during the war, continue with one card face down, one face up.
